THE CHINA MAIL.

ACTING SUB-Lieutenant B. E. M. Waters, R.N., well known on the Rugby football field in Hongkong, has been confirmed in the rank of sub-lieut.

The Portuguese transport *Africa* arrived at Manila on the 12th inst. She was to remain three or four days, and then proceed to Singapore.

The Railway School at Tientsin will be presided over by Mr C. Kinder, Engineer-in-Chief. The object of the school is not so much to produce engineers as English-speaking responsible foremen, station-masters, etc.

The Chartered Bank of India, Australia, and China have challenged Taikoo for the Hong Challenge Cup at the coming Shanghai Regatta. The Bank is said to have a good crew and an excellent oar in their stroke, Mr. Loveson.

The following vessels arrived at Manila on the 8th inst.:—British barque *Cedar*, from Newcastle, with coal; British barque *Calgary*, from Haiphong, in ballast; Norwegian steamer *Fresen*, from Nagasaki.

A consignment of thirty-three griffins arrived at Shanghai from Tientsin lately. Fifteen were sold at auction on the 12th inst.; prices ranged from Tls. 350 to Tls. 30. The average was well over Tls. 110.

The *Comercio* of Manila, of the 7th instant, says that a cotton spinning factory will be started shortly in the parish of Tukulan, Manila. This new industry is undertaken by an English firm. The machinery has just arrived at Manila.

It is reported by *El Comercio* that the Japanese Consul at Hongkong, on his return from Manila, will recommend the Japanese Government to send twenty intelligent youths to Manila to study practical astronomy at the excellent Meteorological Observatory at Manila.

The annual regatta of the Victoria Recreation Club has been fixed for Thursday and Friday, the 10th and 11th December. On Friday, the 23rd October, the captains and crews to compete for the Chairman's Challenge Cup will be selected. Five splendid four-oar boats, built by the Doel Company, have just been received by the Club.

YESTERDAY morning a lady who was riding a bicycle along Queen's Road had a rather nasty spill through collision with a rickshaw. The coolie was coming from the west, and turning the corner at Pedder's Street, he smashed into the lady's front wheel, throwing her into the gutter. Inspector Mann, who witnessed the occurrence, summoned the coolie to appear at the Magistracy to-day, and Commander Hastings imposed a fine of \$10.

The annoyance caused to intending passengers and the ship's company of the *Catherine Anne*, by boarding-house coolies and others boarding the ship on the morning of sailing, and planting their maps upon the deck, and demanding money from the other passengers for the places thus secured, led to the Police making a raid this morning, and seven persons being arrested. At the Magistracy to-day Commander Hastings fined each prisoner \$50 for boarding the steamer without the Captain's permission.

H. E. Li Hung Chang arrived at Tientsin on the 3rd inst., and was received at the railway station by the foreign community, the Chairman of the British Municipal Council (Mr E. C. Conis) delivering a short address of welcome. Li looked in excellent health, not the least jaded, and as active and alert as ever. The Vicerey speaks very highly of Dr Irwin's constant care and devotion during the tour, and does not hesitate to attribute to the doctor's professional skill much of the success of the mission.

At the Magistracy to-day, before Commander Hastings, Captain Mackenzie, of the river steamer *Paig*, was charged with having, on the 13th October, 1896, unlawfully obstructed the southern fairway by anchoring his steamer there. Mr F. B. L. Bow (of Mr H. L. Denys' office) appeared on behalf of the defendant. The defence stated that the steamer was not anchored in the fairway but in the junks anchorage. The *Paig* came in early in the morning, but before reaching her wharf, the engineer telephoned up from the engine-room that one of the bearings had become heated, and on hearing the wharf a man shouted that the mooring gear was broken. He then anchored his steamer. The evidence for the prosecution was that the steamer was lying 150 feet from the wharf in the centre of the fairway. Commander Hastings said there was nothing at all in the evidence to show that the steamer was in any danger. The Captain might have gone straight to a proper anchorage. He knew perfectly well he had no legal standards from the very beginning. He would sue him \$50.

HONGKONG JOCKEY CLUB.

An extraordinary meeting of the members of the Hongkong Jockey Club was held in the City Hall this afternoon to confirm the resolution passed at the extraordinary general meeting on the 2nd October. Hon. C. P. Chater presided. The other gentlemen present were:—Messrs A. Coxon, T. Jackson, D. Gilkes, F. Harton (Stewards); V. A. C. Hawkins, H. N. Mody, R. B. Joyce, and L. Swindt.

The Chairman after reading the notice calling the meeting, said:—The object of this meeting is to confirm the resolution passed at the extraordinary general meeting on the 2nd October, on which occasion the subject was thoroughly discussed that we all know how Capt. May can uphold his official rights, but his action has usually a fair groundwork of intelligence and straightforwardness.

That your youthful and I'm sorry to say too short-lived contemporaries of the *Camp Gazette* are fond of.

That the subsequent proceedings following the famous 'chip-chip' case appear to show that had Captain F. H. May been in the Colony, the outrageous official action of defending an illegal act would not have been taken.

Dr. J. Collis Browne's

CHLORODYNE

IS THE GREAT SPECIFIC FOR
COUGHS, COLDS,
ASTHMA,
BROCHITIS.

D. J. COLLIS BROWNE'S CHLORODYNE.—Dr. J. COLLIS BROWNE (late Army Medical Staff) DISCOVERED A REMEDY, to generate which he coined the word CHLORODYNE. Dr. Browne is the SOLE INVENTOR, and as the composition of Chlorodyne cannot possibly be discovered by Analysis (organic substances defying elimination), and since the formula has never been published, it is evident that any statement to the effect that a compound is identical with Dr. Browne's Chlorodyne must be false.

This caution is necessary, as many persons deceive purchasers by false representations.

D. J. COLLIS BROWNE'S CHLORODYNE.—Vice-Chancellor Sir W. PAGE WOOD stated publicly in Court that Dr. J. COLLIS BROWNE was undoubtedly the INVENTOR of CHLORODYNE, that the whole story of the defendant Fromont was deliberately untrue, and he regretted to say it had been sworn to.—See *The Times*, July 13, 1884.

D. J. COLLIS BROWNE'S CHLORODYNE IS THE TRUE PALLIATIVE IN EPILEPSY, GOUT, CANCER, N. TOOTHACHE, RHEUMATISM.

ENO'S "FRUIT SALT"

Invaluable to Residents in

HOT COUNTRIES.

Is the best Preventive and Cure for

Biliousness. Sick Headache.

Mental Depression. Want of Appetite.

Skin Eruptions. Pimples on the Face.

Constipation. Vomiting.

Giddiness. Feverishness.

Thirst, &c. Unnatural Excitement.

Impure Blood. Errors in Diet.

Instead of being lowering to the system, ENO'S "FRUIT SALT" is in the highest degree

Invigorating, and does not clog or get hard in warm and humid Climates.

A SPARKLING AND REFRESHING DRAUGHT.—Notwithstanding its medicinal value, the "FRUIT SALT" must be looked upon as essentially a beverage for all occasions, and especially for all sportsmen, and others who are fond of outdoor exercise, and for all who are fond of swimming in the same way as Locomotion, Soda Water, Potash Water, &c., only if much cheaper and better, is every sense of the term, to an unwholesome extent.

PRESERVING AND RESTORING HEALTH.—ENO'S "FRUIT SALT" is as simple, yet just as powerfully, on the animal system as anything done on the vegetable system. It is a great solvent, and removes all impurities, and历史 (by natural means) the unnatural and dangerous accumulation of fat. It keeps the body in healthy trim, by preserving and restoring health.

TO PARENTS.—This preparation is invaluable in the nursery as a gentle laxative. It is pleasant to the taste, and much superior to tannic or other astringent drugs. It corrects the appetite, and removes all the symptoms of indigestion, and the bowels ought to be kept freely by the "FRUIT SALT" for a month or six weeks after acute diseases, as Malaria, Rheumatic, Catarrhal, Scrofulous, and all Fevers or infectious Diseases, &c., for the cure of the system of the "Dress." Many of our physicians prescribe it.

HOT COUNTRIES.—ACIDITY OF THE STOMACH.

ENO'S "FRUIT SALT" is invaluable in the treatment of the Stomach, Indigestion, and Fevers as are common in the hot countries of the East, where Acidity of the

Stomach, Indigestion, and Fevers are as common.—J. M. PERRINS, M.A., Author of *Armenia, Syria, and Egypt*.

CAUTION.—Legal Rights are protected in every State and Country. Examine each bottle

and see that the Consul is marked ENO'S "FRUIT SALT". Without it you have been

imposed on by a WORLDSIDE IMITATION.
